# Welcome

It is now recognized that thoughts and emotions are also impulses that have a direct impact on our health, no longer viewed as separate from our physical well-being. For this reason, balancing of the energy flow allows for integration of all these aspects, and can assist in resolving any distressing issues being faced. Rather than being designed to treat specific complaints, the EMF Balancing Technique serves to open that space of peace and well-being within you, wherein your body's own wisdom will promote healing on the necessary level. The intent is not to rely on continual balancing by a practitioner, but to use your improved energy to move forward in your own power.

# Claim Your Life

NOW IS THE TIME TO WEAVE  
YOUR NEW REALITY

Two sessions to clean, clear & balance your chakras, your pathways, your field. Step into a fresh way of Being and create your life from there.

## OUR FIRST SESSION

These Phases, or sessions, offer a gentle way to clear old patterns directly & efficiently. When painful memories, for example, are stuck anywhere in the system, the energy charge they hold tends to produce repetitive fear-based behaviors due to the past trauma and this, of course, holds you back and creates excess stress (emotional, mental or physical). When the energy is released, you are “free” to make new, supportive choices & find new levels of energy within yourself. Your decisions will then be based on the wisdom of both the mind and the heart, in balance. (Phases I & II).

## OUR SECOND SESSION

As you step into your own power & wisdom and learn to trust your intuition even more, you move into the world of possibilities. It allows you to see beyond what is & into the realm of what can be. This is the birthplace of creative thought & the driving force behind creative action. Hold your core of power, light & love in daily life. (Phase III) Standing in your pillar of core strength, with the wisdom & support of your life experiences, is an incredibly powerful place from which to live. Stepping out to create the things you want to experience in your life is a more passionate way of being. (Phase IV)

*What Clients have said ....*

*Suzanne's healing work is remarkable. I have received numerous sessions of EMF and other energy work from her and have experienced great results. She has exceptional training in EMF work and is a capable, sensitive and gifted hands-on healer. I highly recommend her. OL*

*The EMF Balancing sessions that I have received from Suzanne have provided me with a clarity and inner strength to move forward and let go of past issues that have held me hostage ... free at last! CA*

*Suzanne's work has always been gentle and effective. As one who has been in the healing arts for over 20 years, I am most excited by the EMF sessions. I consider it to be the missing link I have been looking for. It has been my experience that the work Suzanne provides, together with my intention, allows the opportunity for healing on all levels. CM, Healer*

*I am transported to a magical place as warm and soothing and fragrant as you could ever imagine. I am filled with a sense of peace and well-being that nourishes my soul. CH*

*If it is calling to you, give it a try. Clients are often drawn to the work without really understanding the why.*

## Let's stay in touch

I first came across the EMF (Electro Magnetic Field) Balancing work in 2000. It was instrumental in helping me stand up and take a step forward after my "dark night of the soul" when I was wiped out on all levels.

And I've seen it happen for many others I've worked with and taught over the years. I know it can help you too, if you're ready to step into a more empowered way of being.

The time is now. Are you ready?
