Welcome

We are all teachers. We are all students. Being a teacher may look like a formal teaching settings or it may be informal as you teach by the actions you take and the example you set in your daily life. What are you teaching now in your daily moments?

By aligning in harmony with the energies of your spark and the vibrant colors of who you are in your wholeness, a sense of unity within is yours to have in daily life.

Let us awaken that spark within you.

Our Activation Sessions

This Master Activation 2-session series enables the reading and translations of emerging lesson plans, in addition to strengthening the ability to teach, both formally & informally.

1

Standing in your personal truth as a teacher of teachers opens evolutionary channels to receive the frequencies of your new lesson plans. This frequency contributes to the clarity of your insights and increases your vision and perceptions of the actions you choose and the events they may initiate.

2

As you continue to develop and honor the evolutionary spark within yourself, you naturally honor the evolutionary spark in everyone else. This honoring expands your ability to think with your heart and feel with your mind . . . increasing your ability to intuit and reason with your multidimensional intelligence.

The Teacher of Teachers frequency and resonance will bring about great strength – to see clearly – to know what to do next and what will be next, and to catalyze positive action in self and others. Expansion of Consciousness and Personal Empowerment goes way beyond Personal Space; the World is pushing now, and the Great Evolution is further intensifying and catalyzing.

Practice being consciously aware of the words you speak and the tone of your voice. Your emotional energy contributes greatly to the effect of your words, individually and collectively.

When you focus on your shoulders, the energy of responsibility that rests upon them calibrates with positive and uplifting attributes. The agreements you made for this lifetime may now be fulfilled with the complete support of your Teacher of Teachers frequency.

New frequencies of assistance and enlightenment are offered from the crystalline grid of the earth. The light & energy of safety, acceptance, caring, nurturing, benevolence - all these patterns and more are infused into your Universal Calibration Lattice in full support of you, the Universal Human.

Thank you for your interest!

Let's stay in touch

Of course I hope you choose to do these activations, but even if you don't, practice living and expressing your unique spark of universal life.

Practice being consistent in saying what you mean and meaning what you say. Choose your words with care so you may be heard and understood. Listen for the expression of authenticity in others when they communicate what is important to them.

And take exceptional care of yourself!
